New! HD Analog Security

ALIBI™

Megapixel Resolution ... Analog Simplicity

Introducing Hybrid+

Record Analog, HD Analog, or IP Cameras on one device!

Flexible Hybrid+ video recorders let you use analog security cameras and take advantage of the latest HD and IP technology. The 960H HD-TVI Hybrid+ Security DVR provides a cost-effective, high-resolution recording solution for your business or retail store.

SEE PAGE 14 ▸

New! HD-TVI Cameras

Send Megapixel-Quality Video Over Coax Cable

MEGAPIXEL HD-TVI CAMERAS STARTING AT $99.99

HD-TVI is the latest in HD Analog technology, and delivers significant advantages relative to other HD analog formats. HD-TVI is capable of supporting longer cable runs – up to 1600' on RG59, and up to 650' on CAT5 – and transmits video with ZERO latency! HD-TVI delivers up to 2.1 megapixel images, at significantly lower cost than comparable IP technology, and is as simple as analog to install and operate.

SEE PAGE 15 ▸

7 Benefits of HD-TVI Technology

- **Megapixel Resolution** High-definition images provide forensic detail and digital zoom capabilities
- **Simple Installation** No IP-networking required! Installs as easily as a standard analog CCTV camera
- **Lower Cost** HD solutions offer megapixel resolution at a fraction of the cost of IP
- **Zero Latency** Monitor video in real-time, without the transmission delays common to IP solutions
- **Low Cabling Requirements** Transmit HD video fast – and with high signal quality, regardless of cable quality
- **Longer Transmission** Transmit HD video up to 1600' over standard CCTV cable – 3X the distance of IP systems
- **Transition Friendly** Compatible with existing CCTV cameras and existing cables

Don't just take our word for it!

Don't just take our word for it!

Call today to see a **live video demo** of the Alibi Hybrid+ DVR with our HD Analog cameras.

ALIBI IP systems feature an integrated PoE switch and Auto-Connect features to quickly detect and configure supported IP cameras. These scalable IP solutions support up to 32 IP cameras, and all channels come pre-licensed and fully enabled, with no recurring fees.

Feature-Packed IP NVRs

All Alibi NVRs feature an integrated PoE switch

This SwitchBox NVR delivers an IP network recording solution—without the complexity. It features an integrated 4-port PoE (Power over Ethernet) network switch to power your IP network cameras directly through the network cable—so you don't need to buy a separate network switch.

3000 Series SwitchBox NVR

- Plug and play support for compatible IP cameras (Up to 2.0 megapixel resolution)
- 4 or 8 independent PoE network ports with integrated network switch
- Up to 4TB security-grade hard drive
- Linux embedded operating system
- VGA and HDMI video outputs
- H.264 video compression
- Multiple selectable recording modes (continuous, motion detection, and scheduled)
- Additional features: event log, and email and event notification
- Free iOS/Android app available

Includes 2-year warranty and 30-day money-back guarantee.

ONVIF Compatible

Includes intuitive software and FREE Alibi Witness app!

How to Buy

DIGIOP ELEMENTS™ is available as a stand-alone management system or pre-installed on our recording solutions – choose the option that's right for you.

DIGIOP ELEMENTS and 4 IP Channel Activation Licenses + Open IP License

Digital Video Management Software for Hybrid/NVR Systems

» Includes 4 IP Channel Activation Licenses
» Expandable to 32 Channels
» Add an Open IP License to enable ALL channels!

See online for recommended hardware specifications.

DESCRIPTION	SKU	PRICE
DIGIOP ELEMENTS + 4 IP Licenses	DE8XX4	$495.00
DIGIOP Open IP License	DE8XX-OIP	$900.00

Pre-installed on ALL DIGIOP Recording Solutions!

DIGIOP server solutions are pre-installed with DIGIOP ELEMENTS to take advantage of Open IP License:

- ALL channels enabled
- Licenses NEVER expire
- NO recurring fees
- PLUS! System-based upgrades for future enhancements

With DIGIOP, you only pay for what you need, and only pay once!

Innovative, Feature-Packed Recording Solutions

Enhanced performance, flexibility & scalability!

DIGIOP NVRs and hybrid recording servers are loaded with powerful features designed to enhance your surveillance system and lower your total cost of ownership.

Available in 2U and 3U rack-mountable chassis – can also be configured as desktop units

Loaded with powerful features:

Never Pay for Camera Licensing Again!

All DIGIOP servers feature DIGIOP's unique **Open IP License.** When you purchase a DIGIOP server, all channels are open—enabling you to add as many cameras as you need (up to the 32-channel max per system), WITHOUT having to purchase additional licenses. Plus—there are NO recurring fees!

Use Any Combination of IP and Analog Cameras

FlexVR™ Hybrid Servers allow you to choose how many analog and IP cameras you want to connect to the system—within the range of the total number of channels supported by the DVR. Use FlexVR servers to support your transition from analog to IP, while utilizing your existing investment.

Extended Storage Options – Up to 14TB!

Larger hard drives allow you to store more video footage for a longer period of time. These new DIGIOP servers feature storage options up to 14TB.

Supports Live-streaming

Use DIGIOP servers as live viewing stations—our Intel i5 and i7 processors can withstand the demands of live local view, without affecting performance.

All Systems Pre-Installed with DIGIOP ELEMENTS

ALL DIGIOP recording solutions ship pre-installed with DIGIOP ELEMENTS, our powerful VMS suite. Find your video faster with multiple search options and integrate with POS, alarms, and more!

Turn the page to see our latest DIGIOP recording solutions ▶

DIGIOP® IP Recording Solutions

Designed with a scalable, easy-to-manage architecture, these DIGIOP® network video recorders can meet any challenge—from a four camera installation at a single location to an expansive global network of more than 5,000 locations.

Di NVR Recording Solutions

Up to 32 Cameras per System

- » Featuring Open IP License! 32 IP licenses included, fully enabled
- » Fully licensed to 32 channels of IP video
- » Core or Performance Options Available Comes pre-installed with DIGIOP ELEMENTS VMS suite
- » Supports live-streaming directly from the recorder
- » Includes 2TB storage - extended storage options available (up to 14TB)
- » Desktop or rack-mountable

14TB	+$3,600

Which model is right for me: Core vs. Performance?

Core systems use an Intel i5 processor, whereas Performance models have an Intel i7 processor. A faster i7 processor allows you to view more live channels at one time at full megapixel resolution. If you want to live-view more channels directly on the box, performance is for you.

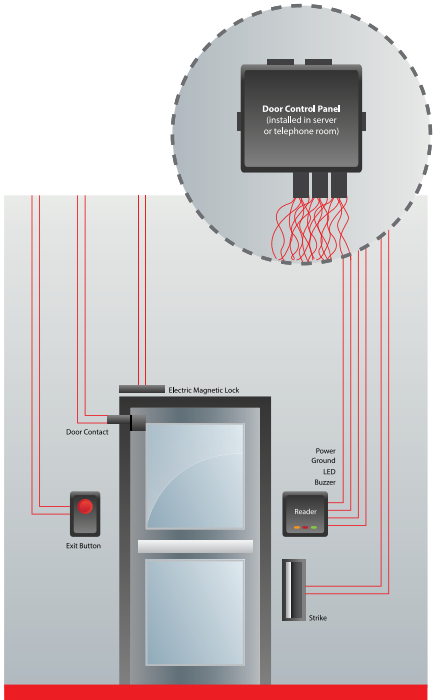
Core (i5 processor)	Performance (i7 processor)
Live-view up to **8 streams** @ 7fps from 2.0 MP cameras*	Live-view up to **16 streams** @ 7fps from 2.0 MP cameras*

Change the Way You Think About Access Control

infinias
Simple. Scalable. Secure.

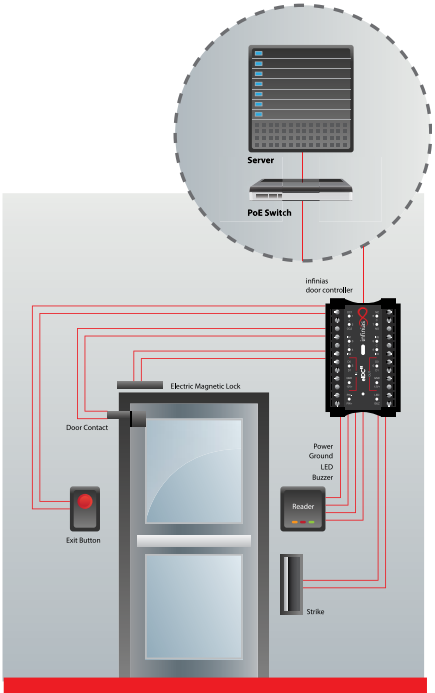
Traditional access control means huge piles of multi-colored wires. IP-based access control has changed all that!

When thinking about traditional access control, most consumers and installers imagine miles of multi-colored cable, all leading from each door to a dusty server closet. infinias IP-based access control changes all that. Leveraging Power over Ethernet (PoE), the infinias eIDC^{32} door controller only requires a single network cable running to your door. Avoiding the tangle of wires, infinias IP-based access control delivers tremendous cost-savings along with the scalability, flexibility, and power security professionals have come to expect from IP-based solutions.



Traditional Panel-based Access Control

- × "Home-run" cabling required for door & each device
- × Devices require an independent power source
- × No hardware failover protection
- × Manual troubleshooting
- × Limited door licensing structure



infinias IP-based Access Control

- ✓ Single Ethernet connection from door to PoE switch
- ✓ Devices powered by controller
- ✓ Failover protection
- ✓ System health monitoring and alerts
- ✓ Easy permissions & schedule management
- ✓ Unlimited door licensing

Now Available with Mobile Credential

Remotely lock & unlock doors with your smartphone or tablet

SAVE UP TO 30%

Over the cost of traditional access control

Get started with IP-based access control – choose a door kit for each door!

All kits come with an eIDC[32], plaster ring, cover plate, access control card reader, and surface mounting box. Our "-ST" kit also includes door contacts and a ROFU electric strike – to complete your door hardware requirements.

Video Balun

Move video signals across long distances

Smart twisted pair transmission products are designed for CCTV signal transmission over unshielded twisted pair wire (CAT 5 network cable). These smart cabling system transmission are an alternative solution to coaxial and fiber based systems, providing following benefits:

» Fast, easy installation, saving time and money
» Substantial savings on the cost of the cable itself
» Superb quality on long range transmission
